- 11.1 A Subaccount can be opened at the request of the Company only. When the Company and an Overlapping Licensee on the Licence Area agree to establish Subaccounts for the Management Unit Account for the Licence Area, the Company shall provide the Minister with a copy of an agreement between the Company and Overlapping Licensee containing provisions which, at a minimum, provide for the following:

If the Company closes a Subaccount, the value of that Subaccount at the time of its being closed shall be credited to the Management Unit Account for the Licence Area. The Company shall ensure that an amount no less than such value will be spent for Eligible Silviculture Work performed on the lands harvested by the Overlapping Licensee which gave rise to the forest renewal charges which were credited to that Subaccount.

- 11.3 If the Company closes a Subaccount in the name of an Overlapping Licensee, the Company's minimum balance obligation described in paragraph 12.4 herein will be increased by an amount equal to the minimum balance obligation of the Overlapping Licensee regarding the closed Subaccount.
- 11.4 The Company shall report annually to the Minister regarding monies spent pursuant to paragraph 11.2.

12.0 FOREST RENEWAL CHARGES AND MINIMUM BALANCE

- 12.1 Forest renewal charges will be determined in accordance with the Crown Forest Sustainability Act.
- 12.2 Forest renewal charges for the Licence Area, or where applicable for each licensee in whose name a Subaccount exists, required to be paid from April 1, 2013 onwards will be calculated as provided in paragraph 12.3 hereof.
- 12.3 For any period after March 31, 2013, the forest renewal charges for those licensees with an account for the Licence Area in the Forest Renewal Trust will be determined after an analysis, which includes at a minimum:
- (a) the licensee's past reimbursements for Eligible Silviculture Work on the Licence Area;
 - (b) a forecast of the amount of Eligible Silviculture Work to be undertaken by that licensee in the period for which the forest renewal charge is being calculated, including Eligible Silviculture Work to be undertaken on areas which have failed to meet silvicultural standards and retreatment;
 - (c) a forecast of the volume and species to be harvested by that licensee in the period for which the forest renewal charge is being calculated; and,
 - (d) the existing value of that account at the time the analysis is undertaken so as to ensure that each account will have sufficient value to fund Eligible Silviculture Work planned in the period for which the forest renewal charge is being calculated, and to ensure that each account has the minimum balance described in Appendix "D" hereto annually on March 31 of each and every year.
- 12.4 The minimum balance for the Management Unit Account for the Licence Area shall be determined in accordance with the provisions set out in Appendix "D".
- 12.5 The forest renewal charge for the **Whitefeather Forest**, or where applicable for each licensee in whose name a Subaccount exists, may be increased or decreased after the type of analysis referred to in paragraph 12.3 above. Such analysis shall be undertaken at

times to be determined by the Minister but no less frequently than every five years. In addition, the Company may request such an analysis at any time.

- 12.6 The analysis described in paragraph 12.3 shall be made jointly by the Minister, the Company, and Overlapping Licensees, where those Overlapping Licensees have an account for the licence area. If they do not agree on such analysis the forest renewal charge shall be set as provided by the Crown Forest Sustainability Act and regulations thereto.

13.0 RECORD KEEPING AND AUDIT (FOREST RENEWAL TRUST)

- 13.1 To facilitate the annual audit of the Forest Renewal Trust:

 - (b) an auditor retained by the Trustee shall at all reasonable times and upon reasonable notice to the Company be entitled to full access to the Company's records, including maps which are required, for the purpose of verifying that the reimbursements from the Forest Renewal Trust received by the Company were for legitimate claims regarding Eligible Silviculture Work.
- 13.2 When a Company or Overlapping Licensee calculates the cost of Eligible Silviculture Work:
- (a) the following elements of cost may be included:

- 13.3 If a Company or Overlapping Licensee contracts out all or part of the work associated with Eligible Silviculture Work, payments by such Company or Overlapping Licensee to contractors performing such work shall be deemed to be expenditures on Eligible Silviculture Work incurred by such Company or Overlapping Licensee for which such Company or Overlapping Licensee is to be reimbursed from the Forest Renewal Trust.
- 13.4 In the event of disputes or audits regarding the cost of Eligible Silviculture Work, generally accepted accounting principles and auditing standards as certified by a person or firm licensed under the Public Accounting Act, S.O. 2004, c. 8 shall be used.

- 14.1 Where the Company requests the written consent of the Minister to the transfer, assignment, charge, or other disposition of this licence pursuant to section 35 of the Crown Forest Sustainability Act, such request shall be in writing and shall be made at least 30 days prior to the date of the proposed transfer, assignment, charge, or other disposition of the licence.
- 14.2 In the event that the licence is transferred, assigned or otherwise disposed of, the Company may claim any expenditures for Eligible Silvicultural Work incurred before the transfer, assignment, or disposition against the Management Unit Account for the Licence Area. The claim for such reimbursements shall be made within three (3) months of the assignment, transfer, or termination of the licence. The balance of that Management Unit Account shall be administered in accordance with the applicable trust agreement. Payments to a new Licensee shall only be made for Eligible Silviculture Work performed after the date that the Licence was assigned or transferred to that Licensee.
- 14.3 Unless otherwise provided for by the written consent of the Minister pursuant to section 35 of the Crown Forest Sustainability Act, the Company's obligation to fulfil responsibilities described in paragraph 16.4 herein continue regardless of any transfer, assignment, charge, or other disposition of this licence.

- 14.4 If the Company's obligation to pay forest renewal charges ceases, the share of the Trust Assets attributable to the Management Unit Account for the Licence Area shall continue to be held by the Trustee and be administered in accordance with the Forest Renewal Trust Agreement.
- 14.5 Nothing in this licence shall affect the Crown's right to seek payment from the Company in a court of competent jurisdiction for any monies received by the Company from the Forest Renewal Trust for Eligible Silviculture Work not performed or which is established to have been negligently performed.

15.0 EFFECT OF WITHDRAWAL OF AREA ON FOREST RENEWAL TRUST

- 15.1 If any land harvested after April 1, 2013 is withdrawn from the Licence Area, and forest renewal charges have been paid for forest resources harvested on that withdrawn area, the amount of such payment credited to the Management Unit Account for the Licence Area less reimbursement for Eligible Silviculture Work on that harvested area shall be determined by the Minister and the Company and shall be dealt with as follows:
- (a) if the withdrawn area becomes part of another Management Unit for which a Management Unit Account exists, it shall be credited to that Management Unit Account;
 - (b) if, at the time of the withdrawal, the Ministry indicates that Eligible Silviculture Work will not be implemented on the harvested areas within the withdrawn area, it shall continue to be credited to the Management Unit Account for the Licence Area to be used for Eligible Silviculture Work on the remaining Licence Area; and,
 - (c) if the withdrawn area does not become part of another Management Unit for which a Management Unit Account exists, but the Ministry indicates that Eligible Silviculture Work will be implemented on the withdrawn area, it shall be paid out as requested by the Ministry for Eligible Silviculture Work undertaken on the withdrawn area.
- 15.2 The Company's responsibility to conduct Eligible Silviculture Work on or to meet silvicultural standards for a withdrawn area ceases as of the date that area is withdrawn.

16.0 SILVICULTURAL STANDARDS

- 16.1 For the purpose of this paragraph, lands within the Licence Area can be classified as Class X Lands: Areas harvested on or after April 1, 2013.

For the purpose of this paragraph, areas are deemed to have been harvested in the fiscal year for which their harvest depletion was recorded in Forest Management Plan annual reports.

- 16.2 Except as provided in paragraph 16.7 herein, the Company shall meet the silvicultural standards described in paragraph 16.4 herein, on all Class X Lands regardless of who harvested a specific area or who performed or is to perform Eligible Silviculture Work. The Company's obligation to meet these silvicultural standards is not diminished where Eligible Silviculture Work is performed by an Overlapping Licensee or by a contractor retained by the Company.
- 16.3 Neither the Company nor the Minister will have renewal obligations in relation to lands which are not described in paragraph 16.1 herein.
- 16.4 The Company will implement the necessary silvicultural prescriptions on lands described in paragraph 16.2 so as to meet the silvicultural standards described in the approved Forest Management Plan for the **Whitefeather Forest** when the silvicultural prescriptions were made, or in accordance with any amendment of that standard.
- 16.5 The Company shall meet the silvicultural standards described in paragraph 16.4 herein regardless of the balance in the Management Unit Account for the Licence Area at any given time.
- 16.6 The Company shall assess and report on, in accordance with the Forest Operations and Silvicultural Manual, the Forest Information Manual, and the Forest Management Planning Manual, the achievement of its regeneration efforts to ensure the obligations and standards outlined in paragraph 16.4 are met.
- 16.7 The obligation to meet the silviculture standards and prescriptions described in paragraphs 16.4 and 16.6 herein may be varied or waived in writing by the Minister in circumstances deemed appropriate by the Minister such as the renewal of areas set aside for experimental studies or for the purpose of tree improvement.

17.0 TERMINATION OF FOREST RENEWAL TRUST

- 17.1 If the Forest Renewal Trust is terminated, the Trust Assets paid to the Crown by the Trustee upon such termination shall be used to pay for Eligible Silviculture Work on the Licence Area as if the Forest Renewal Trust was still in effect until the value of the Management Unit Account for the Licence Area is completely dissipated.

18.0 CONSTRUCTION LIENS

- 18.1 If a lien claimant under the Construction Lien Act, R.S.O. 1990, Chapter C.30 that has performed Eligible Silviculture Work on the Licence Area, or has supplied services or materials in relation thereto, serves a notice of lien in accordance with that Act in relation to such Eligible Silviculture Work, the Minister shall not make any payment to that lien claimant directly or into court relating to that claim without the Minister first giving the Company reasonable notice of his/her intention to do so.

19.0 HERBICIDES

- 19.1 If the government of Ontario or Canada disallows or restricts the use of herbicides which are registered for forestry use in Canada, or such herbicides cease being registered for such use, and such disallowance or lack of registration adversely affects the Company's ability to meet the silvicultural standards described in paragraph 16.4 herein, the Company's obligations to meet those standards or the standards themselves will be reasonably amended in accordance with the amendment process for Forest Management Plans.

20.0 ABORIGINAL OPPORTUNITIES

- 20.1 The Company shall work co-operatively with the Minister and local Aboriginal communities in order to identify and implement ways of achieving a more equal participation by Aboriginal communities in the benefits provided through forest management planning.

21.0 COMPLIANCE PLANNING AND MONITORING

- 21.1 The Company shall prepare a forest compliance plan which describes the proposed planning, monitoring, reporting and education/prevention activities to be undertaken by the Company and any Overlapping Licensees which have been granted approval by the Ministry of Natural Resources to directly assume compliance responsibilities on the Forest.
- 21.2 The compliance plan will describe the responsibilities of the Company and Overlapping Licensees with respect to ensuring compliance with the Forest Management Plan, the Annual Work Schedule, and all applicable legislation, regulations and manuals and guidelines affecting those operations. The forest compliance plan shall be prepared in accordance with standards established by the Minister, in consultation with representatives of Ontario's forest industry.
- 21.3 The forest compliance plan prepared by the Company requires the approval of the Minister or delegate, before forest operations may commence.
- 21.4 The compliance plan will include an annual assessment of compliance and a schedule of all monitoring activities (inspection and reporting) for the Licence Area, including a distinct schedule for each Overlapping Licensee having compliance responsibilities.
- 21.5 The Company and those Overlapping Licensees referred to in paragraph 21.1 are responsible for establishing and delivering internal prevention/education programs and for providing individual staff training to competency standards approved by the Ministry of Natural Resources. The compliance plan must describe the internal

prevention/education program responsibilities of the Company and applicable Overlapping Licensees.

- 21.6 The Company and those Overlapping Licensees referred to in paragraph 21.1 must conduct inspections of forest operations, provide inspection reports to the Ministry of Natural Resources and otherwise comply with the requirements of the approved forest compliance plan. Overlapping Licensees which have been granted the inspection and reporting responsibility will provide such information directly to the Ministry in accordance with the compliance plan and Ministry standards for reporting.

22.0 FORESTRY OPERATIONS ON MINING CLAIMS

- 22.1 Throughout the Licence Area land may be staked or leased for mining potential. Should the Company undertake forestry activities on any mining leases or claims, the Company will assume full responsibility for all forestry activities on these areas and will hold the Crown free from any damages from Company activities.
- 22.2 Following receipt of a Company prepared Annual Work Schedule, the Minister will advise all recorded and patented claim holders located within the proposed operating area of the Company's intent. Claim holders will be instructed to address their concerns to the Company within thirty days. The Company will in turn be available to discuss stated concerns or conflicts with the claim holders.
- 22.3 Subject to the Minister complying with the Freedom of Information and Protection of Privacy Act, the Minister will advise the Company of any known, new or existing activities within the Licence Area authorized by the Minister pursuant to the Public Lands Act.

23.0 MISCELLANEOUS

- 23.1 The Company shall conduct its operations and meet its obligations with respect to the terms and conditions of the Sustainable Forest Licence in accordance with the business plan, as submitted to the Ministry, titled "Whitefeather Forest SFL Business Plan" and dated January 23, 2013, and any amendments thereto which have been accepted by the Ministry. The Company is required to inform and seek the acceptance of the Ministry should any changes to the business plan be contemplated. Any substantial change to the business plan, which shall only be made with the approval of the Ministry, may result in amendments to this Sustainable Forest Licence pursuant to section 34 of the Crown Forest Sustainability Act.
- 23.2 In the event the Company ceases to carry on business, is dissolved or wound-up or is declared bankrupt or this licence is surrendered to or cancelled by the Minister, the Minister will, on any application for a licence to harvest and/or to receive forest resources from the Licence Area, take into consideration, among other things, the harvest rights on, and the
