

**Box 1**

Will the species colonize and establish a self-sustaining population if introduced into the receiving ecosystem?

likely/uncertain

unlikely

**Box 2**

What are the risks that the species will:

a) compete for food or space with native species?

medium/  
high

low/none

b) prey upon native species?

medium/  
high

low/none

c) have genetic impacts on local stocks?

medium/  
high

low/none

d) cause habitat alterations?

medium/  
high

low/none

e) introduce non-indigenous pathogens or parasites?

medium/  
high

low/none

**F2**

**Box 3**

Will the species have short-term, localized impacts?

yes

no

**F1**

**F2**
