ONTARIO REGULATION 97/04
made under the
CONSERVATION AUTHORITIES ACT

Made: April 14, 2004
Filed: April 15, 2004

**CONTENT OF CONSERVATION AUTHORITY REGULATIONS UNDER SUBSECTION 28 (1)
OF THE ACT: DEVELOPMENT, INTERFERENCE WITH WETLANDS AND ALTERATIONS TO
SHORELINES AND WATERCOURSES**

Purpose

1. The purpose of this Regulation is to establish, in accordance with subsection 28 (6) of the Act, the requirements for content that a regulation made by an authority under subsection 28 (1) of the Act must meet.

Definition

2. In this Regulation,

“regulation” means a regulation made by an authority under subsection 28 (1) of the Act.

Prohibition of development in certain areas

3. Subject to section 4, a regulation shall prohibit development in or on,

- (a) hazardous lands;
- (b) wetlands;
- (c) areas that are adjacent or close to the shoreline of the Great Lakes-St. Lawrence River System or to inland lakes that may be affected by flooding, erosion or dynamic beach hazards, including the area from the furthest offshore extent of the authority’s boundary to the furthest landward extent of the aggregate of the following distances:
 - (i) the 100 year flood level, plus an allowance in metres, determined by the authority, for wave uprush and, if necessary, an allowance in metres, determined by the authority, for other water-related hazards, including ship-generated waves, ice piling and ice jamming,
 - (ii) the predicted long term stable slope projected from the existing stable toe of the slope or from the predicted location of the toe of the slope as that location may have shifted as a result of shoreline erosion over a 100-year period,
 - (iii) where a dynamic beach is associated with the waterfront lands, an allowance in metres inland, determined by the authority, to accommodate dynamic beach movement, and

- (iv) an allowance in metres inland, determined by the authority, not to exceed 15 metres;
- (d) river or stream valleys that have depressional features associated with a river or stream, whether or not they contain a watercourse, the limits of which are determined in accordance with the following rules:
 - (i) where the river or stream valley is apparent and has stable slopes, the valley extends from the stable top of bank, plus an allowance in metres, not to exceed 15 metres, determined by the authority, to a similar point on the opposite side,
 - (ii) where the river or stream valley is apparent and has unstable slopes, the valley extends from the predicted long term stable slope projected from the existing stable toe of the slope or, if the toe of the slope is unstable, from the predicted location of the toe of the slope as a result of stream erosion over a projected 100-year period, plus an allowance in metres, not to exceed 15 metres, determined by the authority, to a similar point on the opposite side,
 - (iii) where the river or stream valley is not apparent, the valley extends the greater of,
 - A. the distance from a point outside the edge of the maximum extent of the flood plain under the applicable regulatory flood plain event standard, plus an allowance in metres, not to exceed 15 metres, determined by the authority, to a similar point on the opposite side, and
 - B. the distance from the predicted meander belt of a watercourse, expanded as required to convey the flood flows under the applicable regulatory flood plain event standard, plus an allowance not to exceed 15 metres minimum distance, determined by the authority, to a similar point on the opposite side.

Permission to develop despite prohibition

4. (1) A regulation shall provide that the authority may grant permission for development in or on the areas referred to in section 3, or in other areas where the Minister is of the opinion that the authority's permission for development should be required, if, in the authority's opinion, the control of flooding, erosion, dynamic beaches, pollution or the conservation of land will not be affected by the development.

(2) A regulation shall require that a permission granted by the authority be with or without conditions and that the permission be in writing.

(3) A regulation may specify in a Schedule to the regulation areas that the authority considers may be developed without permission being granted under this section because, in the authority's opinion, the control of flooding, erosion, dynamic beaches, pollution or the conservation of land will not be affected by the development, and the Schedule to that regulation may specify the type and extent of such development.

(4) A regulation shall describe geographically or by reference to maps filed at the head office of the authority,

- (a) areas that constitute hazardous land, wetlands, areas that are adjacent or close to the shoreline of the Great Lakes-St. Lawrence River System or to inland lakes, river and stream valleys and other areas where, in the Minister's opinion, development should be prohibited, regulated or require the permission of the authority;
- (b) areas that are susceptible to flooding in relation to one of the following flood event standards, described in the Schedule, whichever is applicable:
 1. The Hurricane Hazel Flood Event Standard.
 2. The 100 Year Flood Event Standard.
 3. The Timmins Flood Event Standard.
 4. The Historic Flood Event Standard of the authority.
 5. The 100 year flood level and the flood allowance for wave uprush and other water-related hazards.

Prohibition on certain activities without permission

5. Subject to section 6, a regulation shall prohibit straightening, changing, diverting or interfering in any way with the existing channel of a river, creek, stream or watercourse, or for changing or interfering in any way with a wetland.

Permission for certain non-development activities

6. (1) A regulation shall provide that the authority may grant permission for straightening, changing, diverting or interfering with the existing channel of a river, creek, stream or watercourse, or for changing or interfering with a wetland.

(2) A regulation shall require that a permission granted by the authority be granted with or without conditions and that it be in writing.

Application for permission

7. A regulation shall specify,

- (a) what information a person is required to provide to the authority in an application for permission under subsection 4 (1) or 6 (1); and
- (b) that the maximum period of validity of a permission is 24 months, describe the circumstances in which the validity of a permission may be extended beyond the period stated in the permission, specify the maximum period of validity of such an extension and set out the procedures for obtaining an extension.

Hearing before cancellation

8. (1) If, as referred to in subsection 28 (3) of the Act, a regulation provides for a permission to be granted subject to conditions and for the cancellation of a permission where the conditions have not been met, it shall specify that the authority shall give a notice of intent to the holder of the permission indicating that the permission will be cancelled unless the holder shows cause at a hearing as to why the permission should not be cancelled.

(2) The regulation shall specify that, following the giving of the notice of intent, the authority shall give at least five days notice to the holder of the permission of the date of the hearing.
