

A young girl with braided hair adorned with colorful beads, wearing a bright yellow long-sleeved shirt and black pants, sits on the floor with her arms raised high. She has a joyful expression, looking upwards and to the right. In the background, other children's hands are visible, also raised, suggesting a classroom or group activity. The image is overlaid with a large blue and green diagonal graphic element.

Supporting documents

Introduction

In several modules you have the option to submit / upload documents from your computer to the CCLS site. The process is documented here for reference.

Note:

You can upload updated municipal documents at any time, for example, if updates are made to your fire evacuation procedure or if a new health inspection report is received since the last inspection. Your program advisor will automatically be notified of the updated document.

The documents that can be updated include:

Child Care Centre:

- fire code approval
- building approval
- health approval
- space sharing attestation

Home Child Care Agency:

- fire code approval
- building approval
- health approval

Whenever the status of the document is updated, either by you submitting a document or the Ministry of Education reviewing it, the status will appear along with the date. The document list always shows the most recent status. Following is an example of the status of the approved fire evacuation procedures.

Policies and Procedures				
Document Type	Date Submitted	Status	Status Date	
Approved fire evacuation procedures	Jan 3, 2018	Document Satisfactory	Jan 3, 2018	Select >

Note: If one document contains more than one page, upload it as one document only. Do not upload each page separately.

You will receive another email reminding you the day before the document is due and on the compliance requirement due date. You will also be notified if your program advisor requests a revision to an uploaded document.

In addition to the email, you will be able to see the compliance follow-up requirement in your dashboard.

- Click **Menu** to view a list of all the topics so you can see how you are progressing. You can also jump to a topic to review it again.

Renewing a child care centre licence

Introduction

All child care centre or home child care agency licences have an expiry date. You can see the expiry date on your licence and it is also visible in CCLS.

CCLS sends email reminders / alerts to individual and licensee roles 3 months before the licence expires, and regularly after that: 2 months, 1 month, 2 weeks, 7 days, and daily at 3, 2 and 1 day before the licence expires. The email alerts are sent if the renewal application and fee have not been submitted. If the application is submitted but not the fee, the system will continue to send notifications until the fee is received. The CMSM/DSSAB is also copied on the notification beginning at seven days prior to expiry.

To request a licence renewal, a licensee must:

- submit a licence renewal application form (in CCLS)
- complete an attestation that the licensee is not prohibited from operating a child care centre or home child care agency (in CCLS)
- submit any other documentation required by the Minister
- pay a licence renewal fee

It is up to the licensee to make sure that the Ministry of Education receives the renewal application and fee on or before the licence expiry date. The fee has to be paid online when the renewal application is submitted or sent by mail far enough in advance of the expiry date so that it can be processed before the expiry date. (Please allow at least two weeks for processing.) The renewal application is not considered complete until the renewal application and the fee have both been received and processed.

If a licence renewal application **and the renewal fee** are not received and processed on or before the licence expiry date, the licence **will expire** the next day.

When a child care centre licence is expired, the licensee is no longer legally authorized to provide child care at the premises for more than five children under ten years of age. The number of children receiving care at the premises has to be reduced right away to no more than five children who are under ten years old.

The licensee also has to return the licence and decal by mail to the Ministry of Education within 30 calendar days.

The Licensed Child Care Website (LCCW) displays issued and suspended licences. A warning message will appear on LCCW where the licensee has failed to submit a renewal application

and fee payment before the licence expiry date. If a licence is expired it will be removed from LCCW. If the expired licence has been issued reinstatement it will be displayed on LCCW again.

Once a licence expires, the licensee has two options:

1. Close the child care program permanently; or

Renewing a home child care agency licence

Introduction

When a home child care agency licence is expired, the licensee is no longer legally authorized to oversee child care at more than one home child care premises. The number of children receiving care must be reduced to no more than 5.

All child care centre or home child care agency licences have an expiry date. You can see the expiry date on your licence and it is also visible in CCLS.

CCLS sends email reminders/alerts to licensees 3 months before the licence expires, and regularly after that: 2 months, 1 month, 2 weeks, 7 days, and daily at 3, 2 and 1 day before the licence expires. The email alerts are sent if the renewal application and fee have not been submitted. If the application is submitted but not the fee, the system will continue to send notifications until the fee is received. The CMSM/DSSAB is also copied on the notification beginning at seven days prior to expiry.

To request a licence renewal, a licensee must:

- submit a licence renewal application form (in CCLS)
- complete an attestation that the licensee is not prohibited from operating a child care centre or home child care agency (in CCLS)
- submit any other documentation required by the Minister
- pay a licence renewal fee

It is up to the licensee to make sure that the Ministry of Education receives the renewal application and fee on or before the licence expiry date. The fee has to be paid online when the renewal application is submitted, or sent by mail far enough in advance of the expiry date so that it can be processed before the expiry date. (Please allow at least 2 weeks for processing.) The renewal application is not considered complete until the renewal application and the fee have both been received and processed.

If a licence renewal application **and the renewal fee** are not received and processed on or before the licence expiry date, the licence **will expire** the next day.

When a home child care agency licence is expired, the licensee is no longer legally authorized to provide child care at more than one home premises.

The licensee also has to return the licence and decal by mail to the Ministry of Education within 30 calendar days.

The Licensed Child Care Website (LCCW) displays issued and suspended licences. A warning message will appear on LCCW where the licensee has failed to submit a renewal application and fee payment before the licence expiry date. If a licence is expired it will be removed from LCCW. If the expired licence has been issued reinstatement it will be displayed on LCCW again.

Once a licence expires, the licensee has two options:

1. Close the home child care agency permanently
