Part I – Overview

Ontario, Canada and the Algonquins of Ontario (AOO) are currently engaged in the final stage of treaty negotiations, which the parties anticipate will be concluded in the coming years. If the negotiations are successful, the result will be a Final Agreement that will take the form of a modern-day treaty and will include the transfer of provincial lands from Ontario to the AOO.

In order to transfer provincial lands to the AOO, Ontario must consult with the public, agencies, and Indigenous communities who have a known or potential interest in the proposed transfer of lands following processes laid out in the 2007 Algonquin Land Claim Declaration Order made under the *Environmental Assessment Act*. This includes:

- assessing the potential positive and negative environmental effects (e.g. social, cultural, economic and natural environment);
- identifying how Ontario plans to address the environmental effects; and
- providing an opportunity for public review and comment.

In August 2017 Ontario released the Draft Environmental Evaluation Report and Ontarians were invited to share their feedback about the proposed future transfer of provincial lands to the Algonquins of Ontario (AOO).

Since then, further negotiations have resulted in changes to the proposed AOO lands package. We are now providing a Supplemental Report to the Draft Environmental Evaluation Report: Proposed Settlement Lands with updated information for public review and comment.

The current lands package is reflected on the map Algonquins of Ontario Treaty Negotiations Lands Proposals (Appendix A). Changes to proposed AOO Settlement Lands include:

- new parcels of Crown land proposed for transfer;
- refinements to existing parcel boundaries; and
- the removal of previously proposed Settlement Lands.

In the Supplemental Report, we will refer to changes to the lands package as “parcel changes” to assist the reader and indicate a new or modified parcel using bold.

Ontario is currently seeking comments on the new or modified parcels of provincial lands proposed to be transferred as Settlement Lands to the Algonquins of Ontario including their proposed official plan designations and zoning which will apply after provincial lands are transferred into Algonquin ownership. Settlement Lands are described in the Agreement-in-Principle as the lands transferred in fee simple to one or more Algonquin Institutions.

The Supplemental Report, the 2017 Draft EER and supporting maps (e.g. parcel maps) can be found on Ontario.ca at www.ontario.ca/algonquin-land-claim-environmental-evaluation-report.

Written comments can be submitted during the 45 day notice period by email to: eerfeedback@ontario.ca or by mail to the Ontario Information Centre, Algonquins of Ontario Land Claim, 31 Riverside Drive, Pembroke, Ontario, K8A 8R6.

Feedback from the review of the Supplemental Report will be added to the comments and feedback received during the consultation period on the Draft EER in 2017. This will be considered in preparing the Final Environmental Evaluation Report that will be released for public review.

Partie I – Aperçu

À l'heure actuelle, l'Ontario, le Canada et les Algonquins de l'Ontario (AO) sont engagés dans la phase finale des négociations d'un traité qu'ils s'attendent à conclure au cours des prochaines années. Si elles s'avèrent fructueuses, ces négociations déboucheront sur une entente finale qui prendra la forme d'un traité moderne et comprendra le transfert de terres provinciales de l'Ontario aux Algonquins de l'Ontario.

Pour pouvoir transférer des terres provinciales aux Algonquins de l'Ontario, l'Ontario doit consulter le public, des organismes et des collectivités autochtones qui ont un intérêt connu ou potentiel dans le transfert proposé de terres en suivant les processus énoncés dans l'Ordonnance déclaratoire relative à une revendication territoriale des Algonquins de 2007 prise en vertu de la *Loi sur les évaluations environnementales*. Il faut pour cela :

- évaluer les effets environnementaux positifs et négatifs potentiels (p. ex., sur l'environnement social, culturel, économique et naturel);
- déterminer comment l'Ontario prévoit traiter les effets environnementaux;
- donner au public la possibilité d'examiner et de commenter la proposition.

En août 2017, l'Ontario a publié l'ébauche du Rapport d'évaluation environnementale et les Ontariennes et Ontariens ont été invités à faire part de leurs commentaires sur le transfert futur proposé de terres provinciales aux Algonquins de l'Ontario (AO).

Depuis lors, de nouvelles négociations ont abouti à des modifications des terres dont l'inclusion dans le transfert aux Algonquins de l'Ontario est proposée. Nous fournissons maintenant un Rapport supplémentaire de l'ébauche de rapport d'évaluation environnementale : terres visées par le règlement proposé contenant de l'information mise à jour pour que le public puisse l'examiner et le commenter.

Les terres visées actuelles sont représentées sur la carte Terres visées par les négociations du traité avec les Algonquins de l'Ontario (Annexe A). Les modifications apportées aux terres visées par le règlement proposé de la revendication territoriale des Algonquins de l'Ontario comprennent :

- les nouvelles parcelles de terres de la Couronne dont le transfert est proposé;
- une définition plus précise des limites des parcelles existantes;
- le retrait de terres visées précédemment par le règlement proposé.

Dans le Rapport supplémentaire, nous désignerons les modifications apportées aux terres visées sous le nom de « modifications des parcelles » pour aider le lecteur et indiquerons les parcelles nouvelles ou modifiées en gras.

L'Ontario sollicite à l'heure actuelle des commentaires sur les parcelles nouvelles ou modifiées des terres provinciales qu'il est proposé de transférer en tant que terres visées par le règlement de la revendication territoriale des Algonquins de l'Ontario, y compris leurs désignations proposées du plan officiel et le zonage qui s'appliqueront après le transfert des terres provinciales aux Algonquins. Les terres visées par le règlement sont décrites dans l'entente de principe comme étant les terres transférées en fief simple à une ou plusieurs institutions algonquines.

Le Rapport supplémentaire, l'ébauche de REE de 2017 et les cartes à l'appui (p. ex., les cartes des parcelles) se trouvent sur Ontario.ca à l'adresse <https://www.ontario.ca/fr/page/revendication-territoriale-des-algonquins-environmental-evaluation-report>.

Les commentaires écrits peuvent être soumis pendant la période d'avis de 45 jours par courriel à : eerfeedback@ontario.ca ou par courrier au Centre d'information de l'Ontario, Revendication territoriale des Algonquins de l'Ontario, 31, promenade Riverside, Pembroke (Ontario) K8A 8R6.

Les commentaires reçus au cours de l'examen du Rapport supplémentaire seront ajoutés aux commentaires et aux contributions reçus pendant la période de consultation sur l'ébauche du REE en 2017. Il en sera tenu compte lors de la préparation du Rapport d'évaluation environnementale final qui sera publié aux fins de son examen par le public.

Part II – Updated Consultation Process and Project Description

Updated Consultation Process

The consultation process includes an additional step to provide an opportunity to comment on changes to the proposed lands package, as illustrated in Figure 1.

Figure 1 Integrated Negotiation, Environmental Assessment and Municipal Planning Process

The Supplemental Report includes both an opportunity to provide comment on changes to the proposed lands package and Ontario's proposed municipal land use designations and zoning for new parcels or parcels that increased in size. Note: Where parcels have area that has been removed, revised configurations are included in this report and proposed municipal land use designations and zoning are provided in the 2017 Draft EER.

Notification is being sent to municipalities, Indigenous communities, organizations, agencies and individuals with a known or a potential interest in the proposed project, with an invitation to comment on the Supplemental Report. Specifically, Ontario will notify:

1. The Algonquins of Ontario;
2. Those with known or potential interests:
 - Legal interest holders¹ on proposed Settlement Lands;
 - Land owners requiring access requirements; and
 - Persons and organizations who would receive notice of zoning changes or official plan designations under the *Planning Act* and through protected area management planning processes;
3. General public;
4. Municipalities and planning boards;
5. Other provincial agencies and federal departments; and
6. Indigenous communities.

The Algonquin Land Claim Declaration Order (ALC DO) sets out the process to meet provincial environmental assessment requirements related to the Algonquin Land Claim Settlement. We are following the Category C process – Step 3.

Ontario's approach to assessing the environmental effects and identifying official plan designations and zoning is described in the Draft EER.

Updated Project Description

The ALC DO provides direction on how to describe the project to which the evaluation and consultation process applies.

For the purposes of the Algonquin Land Claim Declaration Order assessment, this project is the transfer of parcels of provincial lands as Settlement Lands to AOO institutions and includes associated assets. This includes:

- Transfer of proposed Settlement Lands. Specifically:

¹ Legal interest holders are those who hold legal interests on proposed Settlement Lands such as aggregate permits, recreation/hunt camps, traplines areas, bear management areas and bait harvest areas.

- Provincial lands: provincial Crown lands and publicly-held lands by Ontario. Some provincial lands will be transferred with Crown shore road allowances and Crown road allowances.
- All surface and mining rights.
- Transfer of Crown assets on proposed Settlement Lands;
- Transfer of lands that are and will be subject to flooding rights;
- Establishment of Crown land easements requested by the AOO to provide AOO access to proposed Settlement Lands and;
- Amending/rescinding provincial parks boundaries by regulation:
 - Alexander Lake Provincial Park (Natural Environment Class)
 - Barron River Provincial Park (Waterway Class)
 - Bell Bay Provincial Park (Natural Environment Class)
 - Bonnechere River Provincial Park (Waterway Class)
 - Foy Property Provincial Park (Recreational Class)
 - Carson Lake Provincial Park (Recreational Class)
 - Centennial Lake Provincial Park (Nature Reserve Class)
 - Mattawa River Provincial Park (Waterway Class)

The comprehensive project description can be found in the Draft Environmental Evaluation Report. Changes to the project described below include:

1. Additional municipalities where proposed Settlement Lands are located;
2. AOO access that requires new easements over Crown land to access proposed Settlement Lands; and
3. New publicly held lands proposed for transfer.

Additional Municipalities where Proposed Settlement Lands are Located

Parcel changes resulted in an increase in the number of municipalities where proposed AOO Settlement Lands are located – from thirty-seven (37) to forty-three (43).

In addition to proposed AOO Settlement Lands located in municipalities within the Counties of Frontenac, Hastings, Lanark, Lennox and Addington, Renfrew, the Cities of North Bay and Ottawa, and municipalities within the District of Nipissing, new parcels have been identified in municipalities within the **United Counties of Leeds and Grenville** and the **United Counties of Prescott and Russell**.

The current lands package is illustrated on the map titled Algonquins of Ontario Treaty Negotiations Lands Proposals (Appendix A). Additional parcel specific information for new or modified parcels can be found in appendices B and C.

AOO Access over Crown Lands to Proposed Settlement Lands

Parcel changes have resulted in two (2) new proposed easements over Crown lands being required by the AOO to provide access to proposed Settlement Lands; two (2) easements have also been removed from the package. Overall, there has been no change to the total number of easements over Crown lands proposed to provide access to the AOO to proposed Settlement Lands.

Table 1 has been updated to reflect the easements over Crown lands requested by the AOO for access to proposed Settlement Lands.

Table 1 Easements Requested by the Algonquins of Ontario for Access

Easement Required To Access Land Parcel	Description of Proposed Easement on Crown Land
22Ee	Identified as Part 56 on the Descriptive Plan for parcel 22, this easement is proposed to access the north and south sections of the parcel.
22Ge	Identified in grey on the public consultation map for parcel 22G and located in part lots 28-32, conc 12-13, geographic township of Herschel, this easement is proposed to access parcel 22G from 22E.
178Ce	Identified as Part 22 on the Descriptive Plan for parcel 178C, this easement will provide access to a boat launch at Black Donald Lake.

Easement Required To Access Land Parcel	Description of Proposed Easement on Crown Land
294Ce	Identified as Parts 42 and 43 on the Descriptive Plan for parcel 294C, this easement is proposed to provide access to Opeongo River Provincial Park.
364Ce	Identified in grey on the public consultation map for parcel 364 and located in Lot 20, Conc 13, geographic township of Bangor, this easement will provide access from parcel 364 to Kamaniskeg Lake Road.

Proposed Settlement Lands – Publicly Held and/or Managed

There are changes to the parcels publicly held by the Ministry of Transportation (MTO), Ministry of Government and Consumer Services (MGCS), Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) as well as those managed by the Ministry of Natural Resources and Forestry (MNRF) and the Ministry of the Environment, Conservation and Parks (MECP), that are proposed to be transferred to the AOO.

Table 2 provides details on provincial lands publicly held and managed by the Crown that are proposed Settlement Lands. The table has been updated to reflect parcel changes including new parcels.

Table 2 Publicly Held by Ontario

Categories	Description	Parcel
MTO lands	Lands held and managed by MTO that have previously supported highway management programs.	<ul style="list-style-type: none"> The proposed Settlement Lands include eight sites of which there are three MTO picnic sites: 39, 57, 57B, 279, 280, 365, 374, 386
Other Provincial Lands held by Ontario	These lands are held and/or managed by the MGCS, MNRF or MECP.	<ul style="list-style-type: none"> The proposed Settlement Lands includes parcels: 1, 39, 44, 56D, 66A/66C, 68, 80, 81A, 106, 109, 178C, 214, 216, 231, 237, 294C, 307, 359, 365, 377, 386

Supplemental Report to Draft EER: Proposed Settlement Lands
October 26 2020

Categories	Description	Parcel
OMAFRA	Lands held and managed by OMAFRA that previously supported agricultural programs.	<ul style="list-style-type: none"><li data-bbox="943 279 1414 390">• The proposed Settlement Lands include two sites: 366, 376

Part III – Evaluation of Environmental Effects

In this Supplemental Report, we have updated tables from the Draft EER where there is overlap with an existing interest (e.g. trapline, recreation camp/hunt camps, utility corridors etc.).

New interests are bolded in the tables.

Interests that no longer overlap with proposed Settlement Lands have been removed from the tables.

Ontario reviewed the parcel changes against the screening criteria as found in Table 2.1 of the Algonquin Land Claim Declaration Order and the Draft EER Assessment Parameters Section 5.1 and has determined that there are no new environmental effects from those described in the Draft EER.

Please refer to the Draft EER for a full description of the environmental effects, proposed mitigation measures, and anticipated net environmental effect(s).

A summary of the net environmental effects can be found in the Draft EER Section 9.1 Summary of Net Environmental Effects. The final determination of the net environmental effects will consider input received during this public consultation process and will be included in the final Environmental Evaluation Report for public review.

Existing Uses of Provincial Lands

Access

Parcels have changed along provincial highways and municipal roads, and roads over Crown lands.

Ontario and the AOO have agreed to provide:

- Continued access across proposed Settlement Lands to allow for the authorized uses of provincial lands for purposes such as forestry and mining;
- Public access to provincial parks and conservation reserves; and

- Access to private property.

All parties to the negotiations have agreed that no one will lose existing access to their private property.

The Supplemental Report includes updated information on roads that will become AOO private roads Table 3 – Roads That Become AOO Private Roads and Table 4 Road Access to Private Properties Across Proposed Settlement Lands to reflect changes to the proposed AOO Settlement Lands.

Table 3 Roads That Become AOO Private Roads

Municipality	Parcels	Notes
Addison Highlands	<ul style="list-style-type: none"> • 60F 	<ul style="list-style-type: none"> • One road provides access to former Ontario Ranger Camp.

Unincorporated Area	<ul style="list-style-type: none"> • 1 unnamed road (47G).

Waterways

Parcel changes have resulted in additional beds of waterbodies being proposed for transfer to the AOO. There are approximately eighty-six (86) lakes – an increase of twelve (12) – where the bed of the waterbody may be transferred to the AOO.

Table 5 documents the lakes that are proposed Settlement Lands and/or where a survey is required to determine if the water bodies are non-navigable. The beds of navigable waterbodies will not be transferred to the AOO. This table has been updated.

Table 5 Water Bodies Where the Bed of the Water Body is Proposed for Transfer to the Algonquins of Ontario

Municipality	Parcel	Waterbody
Addington Highlands	206	Unnamed lake
Addington Highlands	60H	(2) Machesney Lake, Little Stoll Lakes

* Denote Specified Algonquin Lands.

Industries, Public Utilities and Other Business Interests

Forestry

Parcel changes occur within the following Forest Management Units (FMU): French-Severn Forest, Nipissing Forest, Bancroft-Minden Forest, Mazinaw-Lanark Forest and Ottawa Valley Forest.

In the Draft EER (2017), Ontario assessed the effects of the transfer of proposed Settlement Lands for each FMU in terms of changes to the land base available for forest management and effects on wood supply and ability to achieve non-timber objectives within the forest management plan.

Water Power - Water Power Generation Stations and their Rights to Flood

Changes to parcels and the addition of new parcels to the proposed Settlement Lands have resulted in more parcels that are currently subject to water power leases and licences of occupation for the purpose of flooding. Prior to transfer, the current flooding rights will be replaced with easements that will permit Ontario Power Generation (OPG) and Renfrew Power Generation (RPG) to continue to flood the parcels for the purposes of their authorized operations.

Ontario has updated Table 6 Water Power Leases and Licences of Occupation for Water Control Structures next to or on Proposed Settlement Lands to reflect the changes.

Table 6 Water Power Leases and Licences of Occupation for Water Control Structures next to Proposed Settlement Lands

Lease or Licence of Occupation	Organization	Interests	Description	Parcels
Lease	Ontario Power Generation	OPG Water Power Lease Agreement #102 on Ottawa River – Papineau- Cameron and 1955 Supplement	This WPLA was made on February 2, 1946 for the purpose of flooding rights and water level manipulation on the Ottawa River. WPLA is associated with Des Joachims Dam. An amendment to the lease was made in 1955 to address additional lands that might be flooded associated with the dam.	(14): 1, 38, 40, 56C, 110A, 182, 259C, 259D, 259E, 334/ 334A , 363 , 365 , 387 , 394 (7) islands: Basil Island (110F), Gibraltar Island (110G), Unnamed Islands (110H and 110I), 1 of the Crab Islands (110J), Gutzman Island (110K), Sacks Island (110L)
Lease	Ontario Power Generation	OPG Water Power Lease Agreement #25 on Ottawa River – Nipissing	This WPLA was issued on May 6, 1953 to OPG for a fixed term of 999 years. This was for the creation of hydro power and flooding rights on the Ottawa River.	(8): 7C, 7D, 47G, 123, 126W , 127Y , 314F , 314L
Lease	Ontario Power Generation	OPG Water Power Lease Agreement # 79 on Centennial Lake	The WPLA was made March 4, 1974 and issued for the purpose of development of water power at Mountain Chute.	(2): 176, 178C
Lease	Ontario Power Generation	OPG Water Power Lease Agreement #80 on Mattawa River	The WPLA was issued on March 07, 1974 for the purpose of waterpower development on Mattawa River.	(1): 44

Supplemental Report to Draft EER: Proposed Settlement Lands
 October 26 2020

Lease or Licence of Occupation	Organization	Interests	Description	Parcels
Lease and Licence of Occupation	Ontario Power Generation	OPG Water Power Lease Agreement #100 and lands under LO #7990 on Norcan Lake	This LO was issued to OPG and has the same boundaries as WPLA #100. WPLA was issued on June 13, 1946; most recent renewal will expire twenty years from the first day of November 2002. This LO was issued to OPG in 1968 and is for a fixed term of 100 years. The LO contains 1862 acres and is for flooding rights. LO is associated with Barrett Chute.	(1): 241
Lease	Ontario Power Generation	OPG Water Power Lease Agreement # 24 on Madawaska River	This WPLA was made on May 6, 1953 and issued to OPG for the purpose of the development of water power at the site known as "Stewartville on the Madawaska River".	(1): 129Q
Licence of Occupation	Renfrew Power Generation Incorporated	Hydro-Electric Commission of the Town of Renfrew - LO #8282 on Golden Lake	This LO was issued to Hydro-Electric Commission of the Town of Renfrew on August 28, 1974 to maintain a dam and to store water in Golden Lake for power purposes and to have flooding and overflowing by means of the dam.	(4): 57, 57B, 58, 311
Licence of Occupation	Renfrew Power Generation Incorporated	Renfrew Power Generation Inc. - LO #8283 on Lake Clear	This LO was issued on August 28, 1974 for the purpose of maintaining a dam, storing water in Lake Clear and Hurds Creek and flooding and overflowing the unpatented Crown lands. LO is associated with Hurds Creek Dam.	(2): 58B, 58C
Licence of Occupation	Ontario Power Generation	OPG - LO # 7345 on Kamaniskeg Lake	This LO was issued on November 28, 1957 for the purpose of constructing and maintaining a dam, to create a storage reservoir on the Madawaska River, and to regulate and control the waters of Kamaniskeg Lake,	(2): 60B, 364

Supplemental Report to Draft EER: Proposed Settlement Lands

October 26 2020

Lease or Licence of Occupation	Organization	Interests	Description	Parcels
Licence of Occupation	Ontario Power Generation	OPG - LO #9775 on Bark Lake	On November 7, 1940, OPG was granted the authority to construct a storage dam with appurtenant works on the Madawaska River to acquire land, store water and regulate the flow of the river in interests of water power.	(7): 75C, 107A, 107C, 192B, 299, 356, 378

Electricity Distribution: Transmission and Distribution Corridors

There are changes to the number of parcels with transmission and/or distribution lines; Nine (9) newly identified parcels have transmission or distribution corridors that cross proposed Settlement Lands.

Ontario has updated table 7 for the transmission and distribution corridors on proposed Settlement Lands. Acquired/patented lands are identified with ¹.

Table 7 Transmission and Distribution Corridors for Electricity on Proposed Settlement Lands

Municipality	Parcel
Addington Highlands	56K, 60F/ 60K , 307 ¹
Bonnechere Valley	58C , 129M
Central Frontenac	68, 235
East Ferris	83F1, 302B
Greater Madawaska	178C
Hastings Highlands	18, 19, 20, 22H , 60B*, 121C, 364e
Head, Clara and Maria	182, 254A* , 259E, 363
Killaloe, Hagarty & Richards	106

Unincorporated Area	350A
Whitewater Region	162

*transmission and distribution lines cross multiple municipalities

Telecommunication Networks

Parcel changes led to a decrease in the number of parcels with known telecommunication infrastructure. Currently there are no parcels with telecommunication infrastructure that cross proposed Settlement Lands and require an easement. Ontario will continue to work with telecommunications companies to confirm.

Oil and Gas Transmission and Petroleum Resources

Parcel changes led to a decrease in the number of parcels with existing natural gas pipeline infrastructure. TC Energy's pipeline now crosses five parcels.

Table 8 was updated to reflect the change.

Table 8 Gas Pipelines and Infrastructure on Proposed Settlement Lands

Municipality	Parcel
Laurentian Hills	56D, 253, 263
Papineau-Cameron	291
North Bay	359

Aggregates Extraction

Parcel changes have not resulted in changes to existing aggregate extraction sites.

Mineral Exploration and Development

Parcel changes have resulted in changes to the lands the Ministry of Energy, Northern Development and Mines (ENDM) has withdrawn from mineral staking for purposes of settlement. ENDM has withdrawn lands from mineral staking in 2012, 2017 and 2020. There are no mining interest holders with mining claims on proposed Settlement Lands.

Other Small Business Interests

Small Businesses or Organizations Land Tenure

There are changes to the number of small businesses or organizations that have existing uses on proposed Settlement Lands. One business has been added; for one business the overlap has changed (see North Frontenac below); two businesses have been removed; and two business interests are now reflected in the trails section. Ontario will work with businesses on a case-by-case basis.

Table 9 shows small business interests on proposed Settlement Lands and has been updated.

Table 9 Business, Municipalities, and Not-for-Profit Organizations with Interests on Proposed Settlement Lands

Municipality	Purpose	Description	Parcel
Bonnechere Valley	Lake Clear: Recreation	LUP #1675-1006202	58B
Central Frontenac	Cultural Centre	-	66A
Mattawan	Along Ottawa River - Campground	LUP #1556-1010536	1
North Bay	Ski Trails: Trail and water crossings	LUP # 2080-30	360
North Frontenac	Round Schooner Lake - Recreation	LUP # 1635-1002767	315T
North Frontenac	Crotch Lake - Islands/ Camping / Access Roads	LUP #1635-1002767	288A, 306A

Municipality	Purpose	Description	Parcel
Papineau-Cameron	Agricultural	LUP #1556-1010487	291
Petawawa	Road (for aggregate extraction)	LUP #1675-1006628	134A
South Algonquin	Commercial Outpost	LUP #1634-1003685	91G

Trapping

There are changes to the number of Registered Trapline Areas (RTAs) that overlap with the proposed Settlement Lands and how they overlap proposed Settlement Lands. There is an increase from 67 to 79 RTAs; and a decrease from three (3) to (2) associated trap cabins on proposed Settlement Lands.

The area within RTAs affected by proposed Settlement Lands ranges from less than 1% up to 79% of a RTA.

Bait Harvest Areas (BHAs)

There are changes to the number of BHAs that overlap with the proposed Settlement Lands and how they overlap proposed AOO Settlement Lands. There is an increase from 113 BHAs to 119 BHAs.

The area within BHAs affected by proposed Settlement Lands ranges from less than 1% up to 93% of a BHA.

Bear Management Areas (BMAs)

There are changes to the number of BMAs that overlap with the proposed Settlement Lands and how they overlap the proposed Settlement Lands. There is an increase from 56 BMAs to 59 BMAs.

The area within BMAs affected by proposed Settlement Lands ranges up to 64% of a BMA.

Recreational Uses

General Recreational Activities

There are changes to proposed Settlement Lands that will result in changes to the public use of Crown land when the Settlement Lands are transferred.

Trails

Changes to proposed Settlement Lands will result in changes to trails that overlap with proposed Settlement Lands.

Table 10 shows well-established trails on former rail beds that have been excluded from proposed Settlement Lands. Table 27 has been updated.

Table 10 Rail to Trail next to Proposed Settlement Lands

Municipality	Trail Name/Parcel(s)
Ottawa Valley Recreational Trail (This type of trail forms part of a well-established trail network based on former rail beds.)

Where a trail has not been identified in **Table 11**, or if it is not agreed to be added to **Table 11**, the public and user groups will no longer have access to these trails once the lands are transferred as they will be on privately owned Settlement Lands.

Highway Rest Steps / Picnic Site

An additional highway picnic site has been added as proposed Settlement Lands. Table 12 has been updated to reflect this change.

Table 12 Highway Rest Stop Locations on Proposed Settlement Lands

Municipality	Location	Rest Stop	Parcel
North Algona Wilberforce	Highway 60 in North Algona (Golden Lake) PIN 57449-0126	Picnic Site	57
Papineau-Cameron	Highway 17 in Cameron Township (Bastien Creek), Lot 26, Con A	Picnic Site	39
Tay Valley	Highway 7; lot 17, conc 4, geographic township of Bathurst	Picnic Site	374

Hunt / Recreation Camps

There are change to the recreation / hunt camps located on provincial lands proposed for transfer to the AOO and that are authorized through a land use permit.

There are thirty-eight (38) land use permits for recreation / hunt camps on proposed Settlement Lands.

Table 13 Recreation / Hunt Camps with LUPs on Proposed Settlement Lands

Previous, Existing and Adjacent Land Uses

Buildings and Structures

There are changes to the Crown assets and structures on proposed Settlement Lands that will be transferred (e.g. former patrol yards have been removed from the package and an MTO rest stop (parcel 374) has been added).

Crown Assets on Proposed Settlement Lands

Table 14 summarizes Crown assets that are located on proposed Settlement Lands and are proposed to be transferred to the AOO. The table has been updated and additions are shown in black bold.

Table 14 Crown Assets on Proposed Settlement Lands

Parcel	Crown Asset (Owner)	Additional Notes
Ontario Ranger Camps		
60F	Machesney Lake Ranger Camp	Non-operational; site clean-up scheduled to commence in 2020.
106	Foy Ranger Camp	Non-operational.; demolition of buildings to commence in 2020; three buildings will be retained (kitchen, washroom and pump station).
MTO Rest Stop		
39	MTO – Highway 17 rest stop	To be maintained for public use.
57	MTO – Highway 60 rest stop	To be maintained for public use.
374	MTO – Highway 7 rest stop	To be maintained for public use.
Water Control Structures		
60F	Machesney Lake – Dam	Minimal structure
Airstrip		
307	Irvine Lake Airstrip	Non-operational
Buildings		
359	Ontario Complex	Buildings
377	OPP Detachment - Renfrew	Building and associated infrastructure (e.g. parking lot)

Other Structures and Occupations on Proposed Settlement Lands

Changes to parcels may lead to the identification of structures and occupations on proposed Settlement Lands. Ontario has and will continue to update Table 15 with the locations of known or potential occupations and/or encroachments of proposed Settlement Lands. In many instances, the list of buildings or structures, or uses of proposed Settlement Lands, will be determined at time of survey.

Table 15 Known Buildings or Structures on, or Uses of, Proposed Settlement Lands

Description of Current Use	Parcel
Buildings or structures	7C; 18; 20 (abandoned hydro infrastructure); 47A (additional buildings); 58C ; 75C (2); 91G (trailer); 129Y (potential building), 315U (building)
Uses of Crown lands	47A (potential waste site); 96I (communication towers)

Contaminated Sites

Ontario has, and will continue to share information, on potential contamination with the AOO. Ontario and Canada will not transfer any lands that are determined to be contaminated beyond a standard acceptable to the Parties after completing the environmental assessment processes. Investigation is ongoing and will be reflected in the Final EER.

Adjacent Land Uses

Adjacent Private Properties

There are changes to the parcels adjacent to private properties.

Adjacent Crown Land Use

There are changes to the number of authorized uses of Crown lands within 120m of proposed Settlement Lands. There are no new uses of Crown lands within 120m within new or changed proposed Settlement Lands. These uses include, for example, hydro-electric dams and water control structures, utility infrastructure, aggregate extraction sites, mining, exploration and development, boat launches and seasonal campgrounds.

Adjacent Provincial Parks and Conservation Reserves

There are changes to provincial parks and conservation reserves adjacent to proposed Settlement Lands.

Table 16 Provincial Parks and Conservation Reserves next to proposed Settlement Lands has been updated.

Table 16 Provincial Parks and Conservation Reserves next to proposed Settlement Lands

Provincial Park or Conservation Reserve	Operating / Non-Operating	Parcel
Alexander Lake Forest Provincial Park	Non-Operating	(4): 4D, 7B, 47A, 126W
Algonquin Provincial Park	Operating	(12): 74A, 75B, 91G, 96I, 124B/ 124C 294C, 297, 318, 336, 338/ 338A , 339, 340/ 340A
Barron River Provincial Park	Non-Operating	(5): 96I, 129A, 134A, 322, 371
Bell Bay Provincial Park	Non-Operating	(2): 75C, 299 Note: Park to be transferred.
Bissett Creek Provincial Park	Non-Operating	(3): 255, 317, 336/ 336A
Bon Echo Provincial Park	Operating	(3): 60F/ 60H , 60I, 60Z
Bonnechere River Provincial Park	Non-Operating	(2): 310, 357
<i>Recommended</i> Deacon Escarpment Conservation Reserve	--	(4): 55C, 55D, 55E , 96I
Foy Property Provincial Park	Non-Operating	(1): 106A Note: Part of park to be transferred.
Grants Creek Provincial Park	Non-Operating	(1): 182A
Hungry Lake Conservation Reserve	--	(1): 68
Lake St. Peter Provincial Park	Operating	(2): 18, 344B
Mattawa River Provincial Park	Non-Operating	(8): 44, 83F1, 83F2, 83F3*, 293, 314G , 314K, 350A
Opeongo River Provincial Park	Non-Operating	294Ce - Easement only.
Upper Madawaska River Provincial Park	Non-Operating	(1): 91G
Recommended Upper Ottawa River Provincial Park	Non-Operating	(18): 1, 7C, 7D, 38, 39, 40, 47G, 56C, 110A, 110M, 123, 182, 259C, 259D, 259E, 334/ 334A , 365 , 387

Encroachments from Adjacent Land Uses

There has been a decrease of five potential encroachments where a building or use extends onto proposed Settlement Lands. Ontario is aware that there may be one new potential encroachment from adjacent private properties. These sites are listed in Table 17 which has been updated.

Table 17 Potential Encroachments on Proposed Settlement Lands

Description of Current Use	Parcel
Potential encroachment (adjacent to Crown land)	7D, 18, 306A, 334
Potential encroachment (adjacent to private property)	56C, 56D (2), 57, 58C , 60G, 80, 129T, 259C, 345
Occupational encroachment	279

Natural and Cultural Environment

Natural Environment

Provincial Parks and Conservation Reserves

There are parts of three additional provincial parks that are proposed to be transferred to the AOO, specifically areas in:

- Alexander Lake Forest Provincial Park;
- Barron River Provincial Park; and
- Bonnechere River Provincial Park.

Table 18 Provincial Parks and Conservation Reserves Modified for Proposed Settlement Lands

Activity	Provincial Park or Conservation Reserves
Deregulation of the entire provincial park	1. Bell Bay Provincial Park 2. Foy Property Provincial Park 3. Carson Lake Provincial Park
Deregulation and transfer of a portion or portions of an existing protected area	4. Alexander Lake Forest Provincial Park 5. Barron River Provincial Park 6. Bonnechere River Provincial Park 7. Centennial Lake Provincial Park 8. Mattawa River Provincial Park
Removal and transfer of a portion or portions of a recommended protected area	9. Recommended Deacon Escarpment Conservation Reserve 10. Recommended Upper Ottawa River Provincial Park

Fisheries Resources – Stocking

There is an increase in the total number of beds of waterbodies proposed for transfer where the waterbodies are currently stocked by MNRF – an increase from sixteen to twenty-three (23) lakes. Table 19 documents lakes that are currently stocked, where the beds are proposed to be transferred to the AOO.

Table 19 Lakes Proposed for Transfer into AOO Ownership that are Currently Stocked

Municipality	Parcel	Waterbody

Unincorporated Area: Geographic Township of Orlig	350A *	(3): Cahill Lake, Gauvreau Lake, Olmstead Lake

*Denote specified Algonquin lands

Cultural Environment

Archaeological Heritage

There have been changes to parcels that may result in a change in which proposed Settlement Lands include areas of archaeological potential and registered archaeological sites. Ontario will continue to identify cultural heritage values on proposed Settlement Lands.

Built Heritage

There has been a decrease in the number of known built heritage resources on proposed Settlement Lands. Ontario has updated Table 20 Built Heritage Considerations which lists structures that may have potential built heritage values.

Table 20 Built Heritage Considerations

Structure	Description	Notes
Dam	<ul style="list-style-type: none"> Machesney Lake Dam (60F). Heritage assessments have not been completed for the dam. 	<ul style="list-style-type: none"> Machesney Lake Dam (age TBC).
Former Ontario Ranger Camp (2)	<ul style="list-style-type: none"> Machesney Lake Ranger Camp (60F) and Foy Ranger Camp (106). 	<ul style="list-style-type: none"> Some buildings at both ranger camps are older than 40 years.
MTO picnic sites (3)	<ul style="list-style-type: none"> Picnic Sites: on Highway 17 (39), on Highway 60 (57) and on Highway 7 (374). 	<ul style="list-style-type: none"> Heritage assessments are normally completed for structures older than 40 years.
Airstrip	<ul style="list-style-type: none"> Irvine Lake Airstrip (307). Less than 40 years old and will not be reviewed for built heritage. 	<ul style="list-style-type: none"> Further analysis not required.
Recreation camps, trappers' cabins and buildings associated with legal authorities	<ul style="list-style-type: none"> The improvements (i.e. the camp and all structures) belong to the land use permit holder and not the Crown. 	<ul style="list-style-type: none"> Further analysis not required.

Part IV – Municipal Official Plan Designation and Zoning

There have been changes to the proposed lands package that have resulted in six (6) newly affected municipalities.

1. United Counties of Prescott and Russell
2. Township of Alfred and Plantagenet
3. United Counties of Leeds and Grenville
4. Township of North Grenville
5. Town of Renfrew
6. Township of McNab / Braeside

Table 21 Newly Affected Municipalities

Upper Tier	Lower Tier	Parcel
United Counties of Prescott and Russell	Township of Alfred and Plantagenet	(1): 376
United Counties of Leeds and Grenville	Township of North Grenville	(1): 366
County of Renfrew	Town of Renfrew	(1): 377
County of Renfrew	Township of McNab / Braeside	(1): 386

The municipal planning framework and Ontario's approach to the assignment of initial proposed official plan designations and zoning for the proposed Settlement Land parcels has not changed since the release of the 2017 Draft EER (see Draft EER section 3.3.2 Municipal Official Plan Designations and Zoning).

Proposed municipal land use designations and zoning have been assigned to new parcels of lands that are currently Crown land proposed as Settlement Lands. For lands that are currently patented (fee simple) and owned by the Crown or an agency of the Crown, Ontario proposes that the existing land use designations and zoning remain unchanged. Appendix B-1 describes the proposed land use designations and zoning for all new and modified parcels.

Part V Next Steps

Address input received during consultation on Supplemental Report

Ontario will review the information received during this 45-day comment period on the Supplemental Report from municipalities, Indigenous communities, organizations, agencies and individuals which will be considered in preparing the Final EER, as well as the report to the Ontario Negotiating Team.

Ongoing dialogue with Indigenous Communities

Ontario will continue to engage and consult with Indigenous communities to identify and understand any concerns they may have on the proposed transfer of Settlement Lands to the AOO.

Release Final EER

Ontario will publish a Final Environmental Evaluation Report (Final EER) for public review that will include a summary of comments received during public consultation. Requirements for the Final EER are set out in the Algonquin Land Claim Declaration Order and further described in the Draft EER.

Appendix A: Algonquins of Ontario Treaty Negotiations Lands Proposals

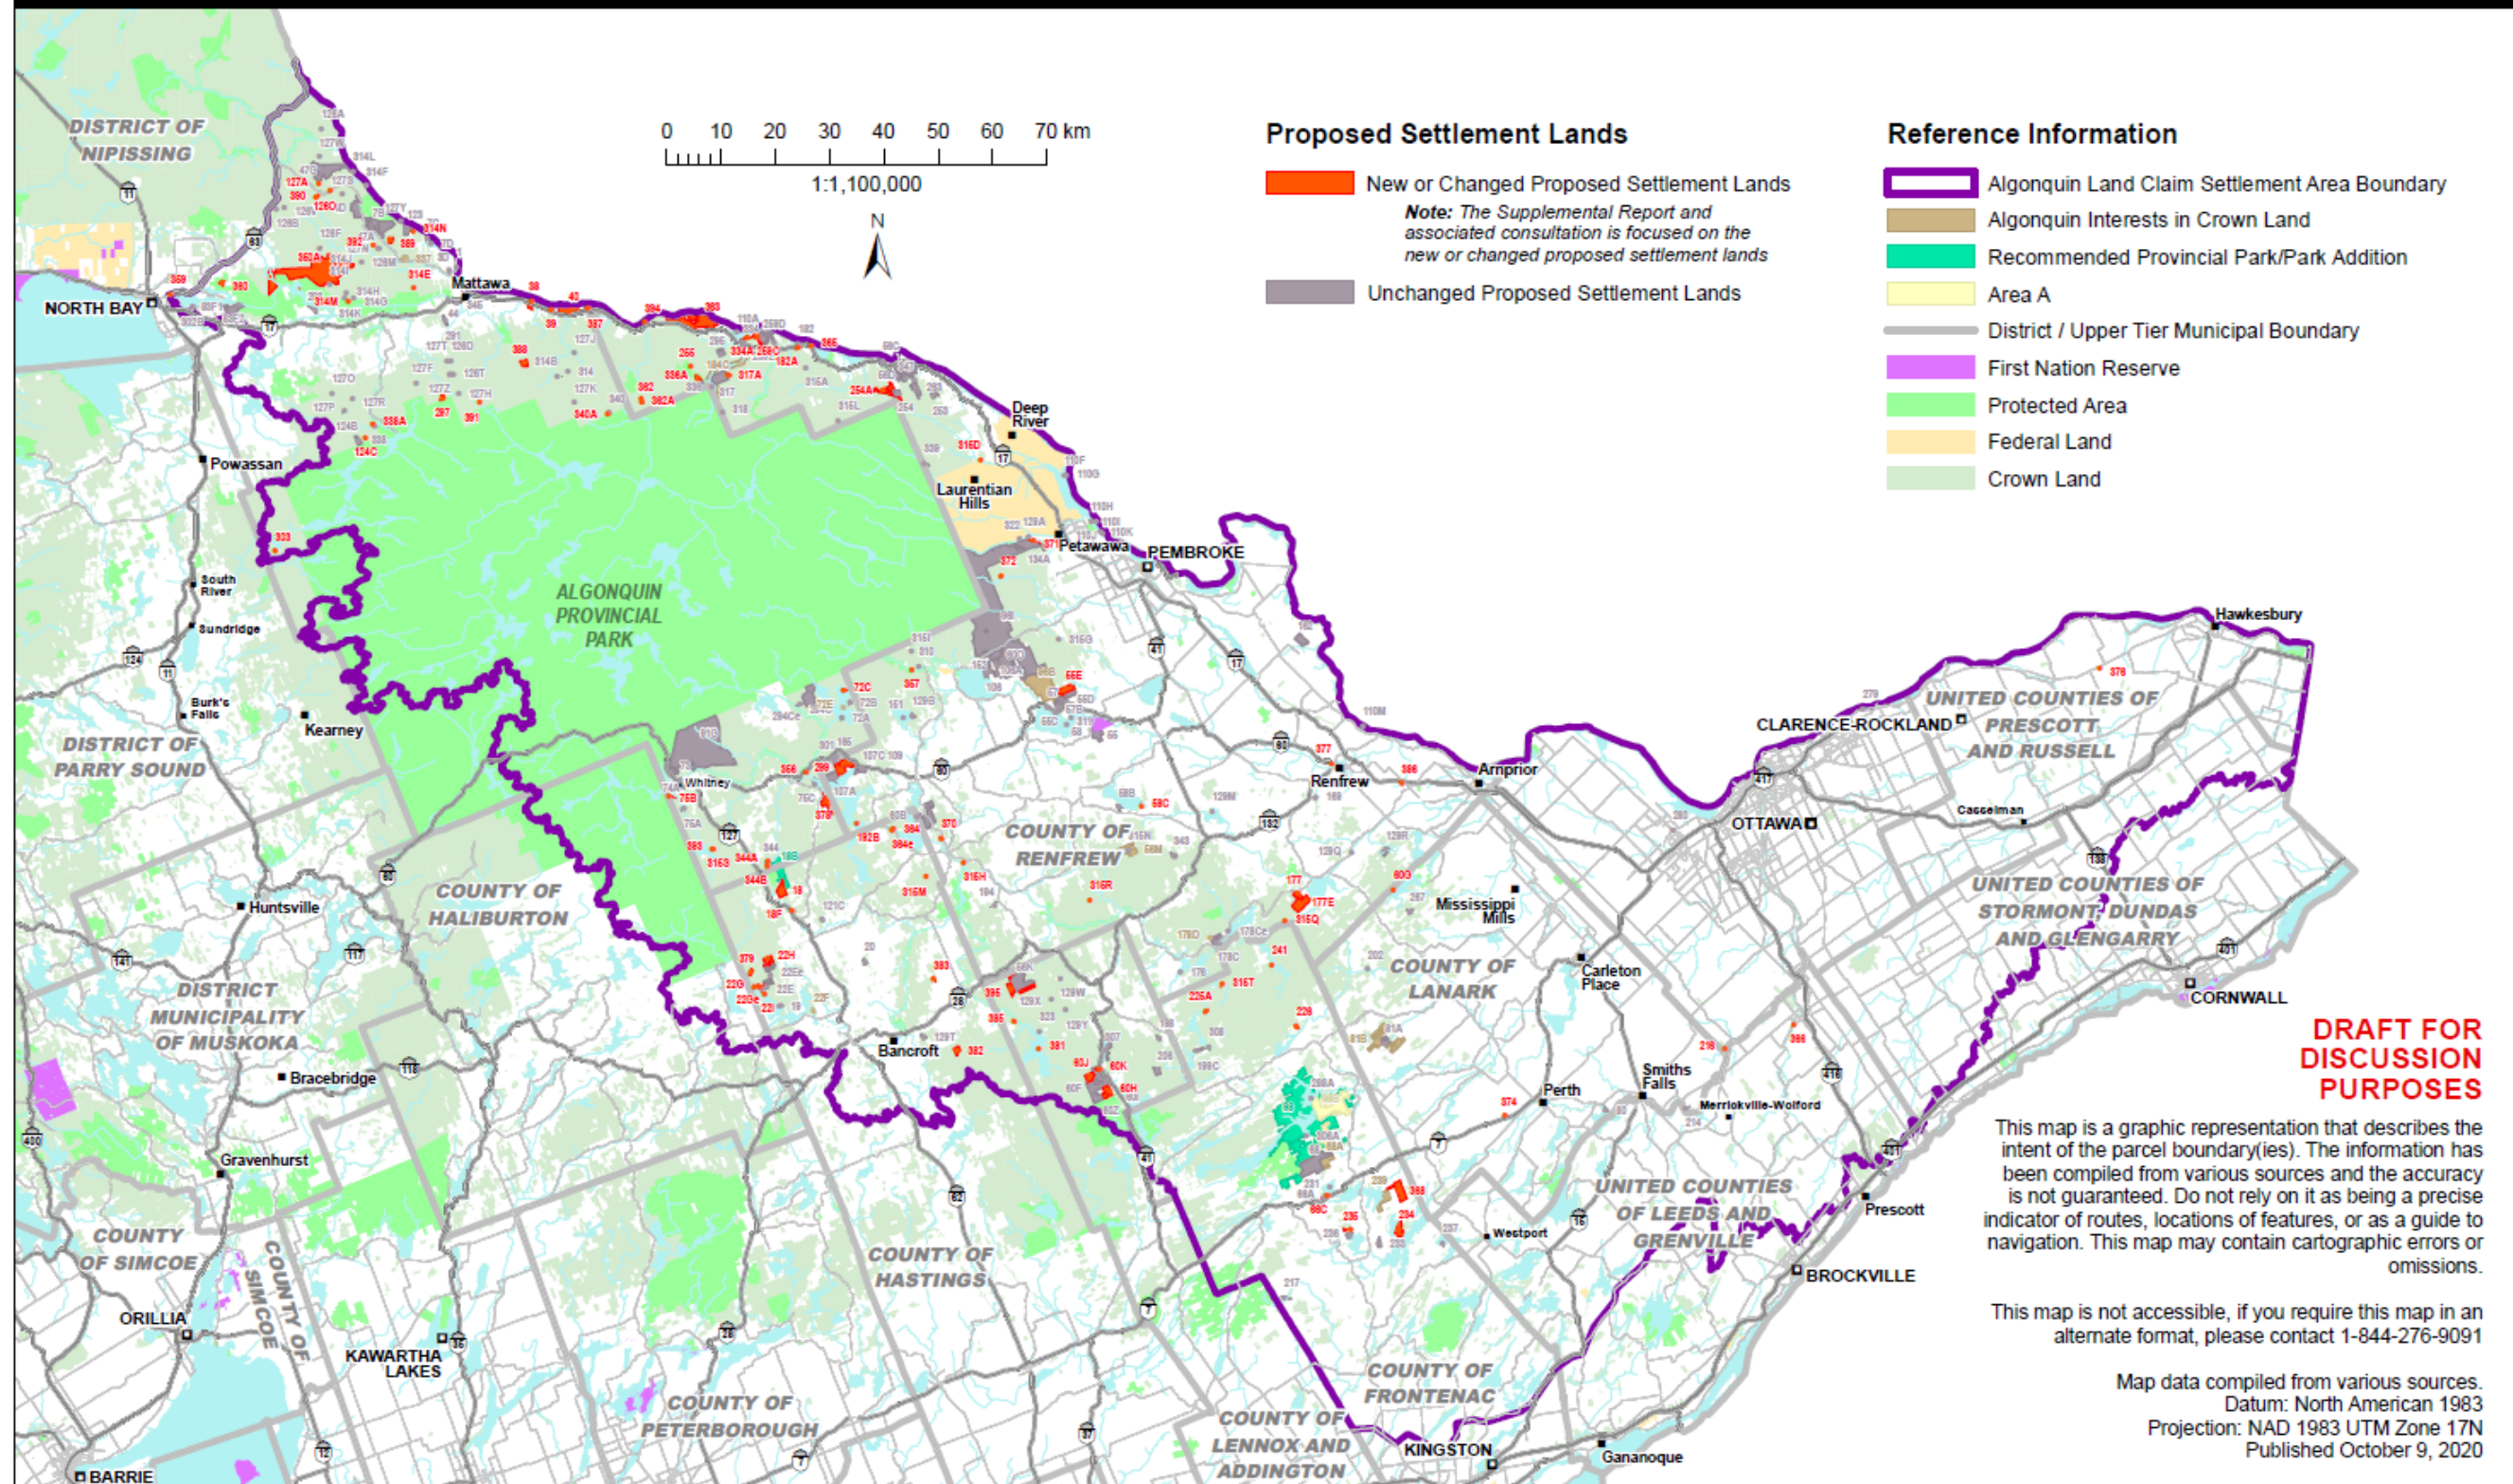

The current lands package is reflected on the map titled Algonquins of Ontario Treaty Negotiations Lands Proposals (Appendix A) and includes:

- new parcels of Crown land proposed for transfer;
- refinements to existing parcel boundaries; and
- parcels where the boundaries have not been modified.

New parcels or where parcels have been added to, or area removed, are further described in Appendix B1.

Parcels where the configuration has not changed, or where a technical change has been made (e.g. access to private property), are further described in Appendix B2.

Algonquins of Ontario Treaty Negotiations Lands Proposals 2020

Appendix B: Parcel Status by Municipality

Appendix B1 – New, expanded or reduced parcels

Parcels in Appendix B1 have been newly added, expanded, reduced or sited (e.g. small acreage parcels (SAP) since the 2017 release of the Draft EER).

For clarity, general locations of SAP were identified in the 2012 Preliminary Draft AIP; some SAP were sited prior to the release of the Draft EER. SAP sited after the release of the Draft EER are identified as sited SAP.

The tables below are organized by municipality and type of change. Ontario's proposed official plan designations and zonings are also identified. Maps can be found in Appendix C.

County of Frontenac

Central Frontenac

There is one new parcel and one modified parcel in the municipality of Central Frontenac. Central Frontenac Official Plan and Comprehensive Zoning By-Law were used to establish the proposed municipal land use designations and zoning.

Table B1-1 – Central Frontenac

Parcel	Type	Description	Proposed Official Plan designations and zonings
66C: Addition to parcel 66A	Modified (addition)	White Lake; Shabot Obaadjiwan Cultural Center	Central Frontenac OP: Rural Area Central Frontenac Zoning: Rural; Limited Service Rural; Environmental Protection
368	New	Shabot Lake	Central Frontenac OP: Rural Area Central Frontenac Zoning: Rural; Limited Service Rural; Environmental Protection

North Frontenac

There is one sited SAP and two modified (reduced) parcels in the Municipality of North Frontenac. The North Frontenac Official Plan and Comprehensive Zoning By-Law were used to establish the proposed municipal land use designations and zoning.

Table B1-2 – North Frontenac

Parcel	Type	Description	Proposed Official Plan designations and zonings
225A	Modified (reduction)	Fortune Lake; Proudfoot Bay	See public consultation map for revised configuration. Draft EER 2017 has proposed OP designation and zoning: North Frontenac OP: Lake Development Area; Rural Area North Frontenac Zoning: Environmental Protection; Rural and Limited Service Rural; Waterfront Residential
241	Modified (reduction)	Norcan Lake	See public consultation map for revised configuration. Draft EER 2017 has proposed OP designation and zoning: North Frontenac OP: Lake Development Area North Frontenac Zoning: Waterfront Residential
315T	Sited SAP	Round Schooner Lake	North Frontenac OP: Waterfront Area North Frontenac Zoning: Limited Service Waterfront

South Frontenac

There is one modified (reduced) parcel in the municipality of South Frontenac. The South Frontenac Official Plan and Comprehensive Zoning By-Law were used to establish the proposed municipal land use designations and zoning.

Table B1-3 – South Frontenac

Parcel	Type	Description	Proposed Official Plan designations and zonings
234	Modified (reduction)	Bedford Tract – Southernmost portions (island and peninsula) removed	See public consultation map for revised configuration. Draft EER 2017 has proposed OP designation and zoning: South Frontenac OP: Environmental Protection; Rural South Frontenac Zoning: Rural

County of Hastings

Carlow / Mayo

There are two new parcels in Carlow/Mayo. The County of Hastings Official Plan and Township of Carlow/Mayo Comprehensive Zoning By-Law were used to establish the proposed municipal land use designations and zoning.

Table B1-4 – Carlow / Mayo

Parcel	Type	Description	Proposed Official Plan designations and zonings
