MANIFEST AND GENERATOR REGISTRATION INFORMATION

FOR THE YEAR OF 2007

Hazardous Waste Information Systems Unit  
Environmental Monitoring and Reporting Branch, Area M  
Ontario Ministry of the Environment  
135 St. Clair Avenue West  
Toronto, ON M4V 1P5

**PUBLIC INFORMATION DATASET**

## **INTRODUCTION:**

The Public Information Dataset contains data summarized by calendar year about the Generators, Carriers and Receivers of hazardous and liquid industrial waste as defined by Regulation 347 under the Ontario Environmental Protection Act. The data extracted from the Hazardous Waste Information Systems comes from:

- a. Generator registration process under Regulation 347.
- b. Ministry of the Environment Certificates of Approval for waste management systems (Carriers) and waste disposal sites (Receivers).
- c. Manifests that have been submitted to the Ministry to document the transfer of subject waste as defined under Regulation 347.

The Public Information Dataset has been created to permit relevant data to be accessed by the public. This dataset is lent to the public for their use. A fee may be charged for this service.

This new set of data is available for direct download from the Ministry of the Environment data downloads page in MDB format.

## **GENERAL CONTENTS:**

The Public Information Dataset contains the following information:

- a. Generator Information (e.g. name, address, contacts etc) in **GEN\_INFO\_2009**
- b. Generator Registered waste information in **GEN\_WASTE\_2009**
- c. Carrier information (e.g. name, address, contacts etc) in **CAR\_INFO\_2009**
- d. Carrier approved waste codes in **CAR\_WASTE\_2009**
- e. Receiver information (e.g. name, address, contacts etc) in **REC\_INFO\_2009**
- f. Receiver approved waste codes in **REC\_WASTE\_2009**
- g. Waste information registered by the Generator in **GENWASTE.DBF**
- h. Manifest summaries by Generator and waste in **MAN\_GEN\_2009**
- i. Manifest summaries by Carrier and waste in **MAN\_CAR\_2009**
- j. Manifest summaries by Receiver and waste in **MAN\_REC\_2009**

- k. Related look-up tables – **COUNTY\_09, DISTRICT\_09, REC\_TYPE\_09, REGION TABLE, WASTE\_CHAR\_09 WASTE\_CODE\_09**

**DATA STRUCTURE & SYSTEM REQUIREMENTS:**

All the data files are in MSACCESS structure and can be used directly by any database management system that can understand MDB files on IBM/IBM compatible PC.
