

Metadata for: Lake Partner Program

This table provides essential information about the program data.	
Title	Lake Partner Program
Alternative Title	LPP
Description	<p>The Ontario Lake Partner Program (LPP) provides total phosphorus, calcium and chloride concentration, and water clarity data for Ontario’s inland lakes. The data are collected annually by volunteers, using a method that is provincially standardized.</p> <p>Purpose: to compile and store total phosphorus, calcium, water clarity, and chloride data for several hundred lakes across Ontario, predominantly on the Precambrian Shield and to track changes in these measures over time. Engaging citizen volunteers to take measurements and collect samples expands the geographic area monitored and fosters public interest in Ontario’s water quality.</p>
Status	Ongoing
Frequency of Updates	Yearly
Contact	<p>Name: Anna DeSellas Phone: 1 (705) 766-0532 Address: 1026 Bellwood Acres Rd., Dorset, Ontario, P0A1E0 Email: anna.desallas@ontario.ca Organisation: Ministry of the Environment, Conservation and Parks Position: Scientist, Inland Lakes Monitoring Role: Point of contact</p>
