

Metadata for: Risk Management Measures Catalogue

This table provides essential information about the program data.

Title	Risk Management Measures Catalogue
Alternative Title	RMMC
Description	<p>The Clean Water Act, 2006 (CWA) requires that the implementation of risk management plans and prescribed instrument policies includes identifying measures that are known to be effective to some extent to manage or reduce the risk posed by activities that the province has prescribed as a threat to drinking water. The Risk Management Measures Catalogue (RMMC) is a compilation of known regulatory standards and best management practices and was developed to support key stakeholders in gathering information regarding known practices available in addressing a drinking water threat.</p> <p>The risk management measures included in the RMMC have been evaluated by several technical experts from the Ministries of Environment Conservation and Parks, Northern Development and Mines Natural Resources and Forestry, and Agriculture Food and Rural Affairs, as well as experts from the source protection authorities, municipalities and the private sector. The user of the RMMC can select risk management measures for inclusion in risk management plans and relevant instruments to ensure that the threat to drinking water is adequately managed.</p> <p>Users of the RMMC will apply their professional judgement to determine what particular measure(s) is/are considered to be sufficient to adequately manage a drinking water quality or quantity threat to meet the test set out in section 22 of the CWA, which is that the threat ceases to be (or never becomes) significant.</p> <p>The catalogue is not intended to provide advice or recommendations about any specific circumstance. The Ministry of the Environment Conservation and Parks assumes no liability for the risk management measures selected by the users.</p>
Status	Ongoing
Frequency of Updates	As Required
Contact	Name: Clara Tucker Email: clara.tucker@ontario.ca Organization: Conservation and Source Protection Branch Position: Research and Watershed Management Scientist Role: Contact
Cited Responsible Parties	Name: Derek Hatfield Email: derek.hatfield@ontario.ca Organization: Conservation and Source Protection Branch Position: IM Coordinator Role: IM Coordinator Lead
Keywords	Elevation, Threats, Safe Water
Tags	Water Quality, Water Quantity, Clean Water Act
Use Limitations	n/a
