

Executive Officer Notice:

Temporary PINs for Humalog® (insulin lispro): Shortage of the insulin lispro biosimilar (Admelog®)

March 31, 2023

The Ontario government is expanding its biologic drug coverage policy to further promote the use of biosimilars funded through the Ontario Drug Benefit (ODB) program. These changes support the ministry's objectives of creating a modern and sustainable drug system that continues to offer high-quality treatment, while allowing the government to fund more new drug therapies, bring innovation to the health care system and continue its work to deliver better, connected patient care. Effective March 31, 2023, the ODB program will start transitioning coverage for Copaxone®¹, Enbrel®, Humalog®², Humira®, Lantus®, NovoRapid®, Remicade®, and Rituxan® to their biosimilar versions. More information regarding the biosimilar policy and pharmacists' role in transitioning patients can be found in the [Executive Officer Notice: Biosimilar Policy](#)

The ministry is aware of the ongoing shortage of Admelog® and is listing additional temporary Product Identification Numbers (PINs) for Humalog® on the ODB Formulary to provide patients with continued access to insulin lispro through the ODB program. The PINs can be used for patients who have recently been prescribed insulin lispro, or for patients currently using Admelog® and due to the shortage are unable to access supply. The ministry will continue to monitor the situation and pharmacists will be expected to assist patients with their transition to Admelog® once the supply issues are resolved. The end of

¹ Glatect® and Copaxone® are non-biologic complex drugs (NBCDs), however, the biosimilars policy will apply to their funding. As a result, in this document, references to an originator biologic include Copaxone® and references to a biosimilar include Glatect®.

² Humalog® 200 units/mL KwikPen® 200U/mL Inj Sol-Pref Pen 5x3mL Pk (DIN 02439611) is excluded from the biosimilar policy. No biosimilar is available for this strength.

the Admelog® shortage and the temporary Humalog® PINs will be communicated through a subsequent Executive Officer Notice.

New PIN	Corresponding DIN/PIN	Product Name	Strength	Dosage Form & Package Size ¹
9858243	2229704	Humalog	100U/mL	Inj Sol-10mL Pk
9858240	2403412	Humalog	100U/mL	Inj Sol-5x3mL Pk
9858241	2470152	Humalog	100U/mL	Inj Sol-Pref Pen 5x3mL Pk (Junior KwikPen)
9858242	9853715	Humalog	100U/mL	Inj Sol-5x3mL Pk

This Executive Officer Notice is a ministry policy that pharmacy operators must comply with under section 3.2 of the Health Network System (HNS) Subscription Agreement for Pharmacy Operators.
