SENIORS COMMUNITY GRANT PROGRAM

1. INTRODUCTION

Ontario is facing a significant demographic shift. Seniors are the fastest growing age group in the province with the number of seniors projected to almost double from 2.3 million to 4.6 million over the next 25 years.

The Ministry for Seniors and Accessibility (MSAA) strives to make Ontario the best place to grow up and grow old in North America.

Ontario’s Seniors Community Grant (SCG) Program was established in 2014 solely dedicated to helping seniors in a way that will encourage greater social inclusion, safety and well being and community engagement. To date more than 1,600 grants have been provided which have positively impacted the lives of more than a half-million seniors across Ontario.

Program priorities will:
- foster initiatives and ideas that provide opportunities for seniors to network and be part of the social fabric of their communities, thereby reducing social isolation;
- lead to activities focused on the safety and well-being of seniors (e.g. combatting Elder Abuse);
- foster initiatives that promote Age-Friendly community development; and
- build capacity and leverage the existing network of Seniors Active Living Centres (SALCs).

This year the SCG grants will range from $1,000 - $4,000 for Stream 1 and $4,000-$25,000 for Stream 2 for projects that must be completed by March 31, 2020. 2019-20 funding is capped at $3 million and the number of approved grants will depend upon the number of eligible applications submitted.

New for 2019-20, all Stream 2 applications will be processed through the Grants Ontario System.

2. OVERVIEW OF STREAMS

The SCG Program will be administered through two streams:

**Stream 1**: Grants between $1,000 and up to a maximum of $4,000
- Applications can be made by individuals who represent seniors’ groups, unincorporated or incorporated not-for-profit organizations, Local Services Boards, and Indigenous groups.
- Grants will support up to 100% of the total eligible project costs up to the maximum amount. If the total project cost is greater than $4,000, the application must outline where the additional funds will come from.
- As Stream 1 is geared to small organizations and collectives that serve seniors and need small amounts of funding, the total project cost must not exceed $10,000.
Stream 2: Grants for over $4,000 up to a maximum of $25,000

- Applications can only be made by incorporated not-for-profit organizations, including Local Services Boards, and Indigenous groups. Multiple organizations, including unincorporated organizations, can partner on a project application, but must have one lead incorporated representative who will be legally responsible for the project.
- Grants will support up to 80% of the total eligible project costs, up to a maximum project grant amount of $25,000. The total project cost must not exceed $31,250.
- The remaining 20% can be a combination of the following:
  - Cash contribution from applicant organization
  - In-kind contribution from the applicant or other sources
  - Contributions from federal, other provincial or municipal government sources.

Please note that there is a special circumstance for Stream 2 applications: an unincorporated elder abuse network may receive Stream 2 funding for the execution of an elder abuse project provided that the lead applicant is an incorporated body. In these cases, the lead applicant:
- may receive the majority of their annual operating base funding from the province; and
- may only use the SCG Program funding to deliver the approved elder abuse grant project.

3. ELIGIBILITY

- Applicants for both streams must be not-for-profit, and in addition represent senior’s groups and/or offer programs or services which do or can directly benefit seniors living in Ontario. For both Streams 1 and 2, organizations must have been in operation for at least one year at the time of application. See Applicant Eligibility for each stream for details.
- Projects may build upon what has previously been funded by the SCG program however it must clearly outline what is unique about this year’s initiative.

New for 2019-20, the application form for the SCG program will include the addition of a Terms and Conditions document. This is the new format for the contract between successful applicants and the Government of Ontario.

Should the application be approved for funding, MSAA staff will complete a final review of each request to assure all expenses and activities are eligible for funding and if no further adjustments are necessary, then the successful applicant will automatically be in an agreement with the Province.

The following terms and conditions are applicable to projects funded under BOTH STREAM 1 and 2:

• Grants will fund only eligible expenditures to the maximum of each stream.
• Cash and in-kind contributions for the difference between the approved grant and total cost of projects can come from the recipient, a partner or another funding source.

• The combination of financial assistance received from the program and other sources cannot exceed the actual budget for the project.
• Stream 1 and 2 grants will be paid in two installments: 80% upon execution of the agreement by both parties and 20% payment upon receipt of a satisfactory Final Report and all relevant receipts.
• The final report is due within 30 days after the project is completed.
• Unspent portions of the grant must be returned to the Province.

9. OVERVIEW

The SCG Program will provide seniors with the opportunity to connect, contribute, learn and lead active lives.

The program has four key priorities and applicants are encouraged to develop projects which address more than one priority. Projects should:

1. Foster initiatives and ideas that provide opportunities for seniors to network and be part of the social fabric of their communities, thereby reducing social isolation.
2. Lead to activities focused on the safety and well-being of seniors (e.g. combatting Elder Abuse).
3. Foster initiatives that promote Age-Friendly community development.
4. Build capacity and leverage the existing network of Seniors Active Living Centres (SALCs).

In addition, at least 50% of the participants benefiting from the project should be 65 years or older. Senior’s involvement in planning the project is highly encouraged.

Examples of anticipated project outcomes:

- Seniors and the organizations and communities that support them will become stronger as they work and learn together.
- Capacity within and across organizations will be enhanced with a view of planning and providing for sustained initiatives that have a measurable benefit over time.
- Beneficial impact for underserved seniors such as those in rural and remote communities, LGBTQ seniors, those from culturally diverse communities and Francophone seniors.
10. PROJECT PRIORITIES

All projects must meet at least one of the key priorities. In addition, applicants are encouraged to submit proposals that address more than one of the following priorities.

PRIORITY 1

Projects will foster initiatives and ideas that provide opportunities for seniors to network and be part of the social fabric of their communities, thereby reducing social isolation.

Examples of eligible projects:
- Organization of and participation in local community events that encourage seniors to get together and be part of local social networks, activities and opportunities to network.
- Organized tours or events which would benefit seniors.
- Organized outreach and support services, such as hiring a driver to bring seniors with limited access to transportation to community events.
- Organized linkages to seniors to support volunteer opportunities in the community.

Examples of measurable outcomes:
- Reaching seniors who have not previously participated in activities, sustained interest in the organization or program.
- Group activities were held and well attended by target audience.
- Promotional products and activities were developed and shared with the target number of seniors.
- The event is usually attended by approximately 25 individuals, but with outreach and support activities, attendance was up 50%.
- Participants voluntarily completed assessment forms.

PRIORITY 2

Lead to activities focused on the safety and well-being of seniors.

Examples of eligible projects:
- Organizing and delivering education sessions or a community resource guide for older adults and community organizations about elder abuse prevention and response.
- Accessibility-based initiatives.
- Creating resources for community service providers to clarify and coordinate roles and responsibilities related to programs, awareness and services in relation to seniors’ safety issues such as falls prevention or elder abuse. Planning, designing and implementing a tool or channel through which seniors can network, exchange information and learn about available resources.
- Organizing and delivering education sessions with local enforcement and first responders.
Examples of measurable outcomes:

- Provincial, regional or local shareable partnership plans that address seniors’ safety and well-being issues.
- Group activities were attended by target audience.
- Participants indicate increased ability to identify potential elder abuse.
- Participants indicate increased confidence/willingness to address potential elder abuse.
- Participants indicate increased knowledge of community resources related to elder abuse and where to find help.

**NOTE:** An unincorporated elder abuse network may receive Stream 2 funding for the execution of an elder abuse project provided that the lead applicant is an incorporated body. In these cases, the lead applicant:

- may receive the majority of their annual operating base funding from the province; and
- may only use the SCG Program funding to deliver the approved elder abuse grant project.

**PRIORITY 3**

**Foster initiatives that promote Age-Friendly community development.**

Examples of eligible projects:

- Development of ride share programs.
- The creation of a check-in phone-support system for seniors to access from home.
- Planning for an exercise parkette with information geared to all ages, including seniors, on how best to perform activity safely.

Examples of measurable outcomes:

- Number of rides provided to seniors within their community.
- Tracking call volume for phone support system.
- Increased community involvement and participation at consultations to shape public offerings in their community.

**PRIORITY 4**

**Build capacity and leverage the existing network of Seniors Active Living Centres (SALCs).**

Finding ways to address the needs of “hard to reach” or isolated seniors in rural and remote areas and high needs urban neighbourhoods by efficiently extending the capacity of Ontario’s SALC network will help ensure the growing number of seniors, particularly some of the most vulnerable and isolated, can receive the frontline services to meet their active living needs.
Examples of eligible projects:

- Activities could include exercise classes, yoga, educational seminars, wellness services, and assistance connecting/re-directly to other services seniors need (e.g., system navigators).
- to bring SALC services to where seniors live/congregate – e.g. traveling SALC staff could hold events/programs in libraries, community halls, apartment building common rooms, etc.
- Proposals could also include use of telephone technology to create virtual “seniors centre without walls.”

Examples of measurable outcomes:

- New and increased participation in seniors-focused programming.
- Greater number of sites where SALC services are delivered.
- Participants indicate increased ability to identify community resources and support available to them.

11. ASSESSMENT PROCESS AND CRITERIA

Projects will be evaluated based on:

- Relevance of Project (40%)
- Organizational Capacity (10%)

The Final Report will provide information on both the project administration as well as the financial activity. It will provide details related to whether the project’s objectives were met, how the success of the project was measured, the level of community participation and response, and any other details required, as outlined in the agreement. As part of the Final Report, all details of financial activity must be documented and reported, such as a financial statement summarizing all project costs, expenses and incomes (such as in-kind contributions). Details will be provided in the agreement.

In-kind contributions can and should be included as part of a project’s total value, especially Stream 2 projects.
