We have the power to:

1. continuously update the qualifying methods
2. review innovative proposed new methods as alternatives or additions to existing methods
3. clarify and rule on disputes regarding the regulations

We have inclusive representation and the power to consult with:

1. external subject matter experts
2. additional individuals with lived experience
3. representative organizations

We support the law, but are independent of partisan influence.

We link the law directly to qualifying methods supported by tools, resources and training.

We bridge political terms.

We are the Trusted Authority

The Trusted Authority is responsible for keeping the qualifying methods for meeting Functional Accessibility Requirements up-to-date, understandable and do-able. This requires the support of the Community Hub. Participating Organizations and community members can propose innovative new ways to meet the Functional Accessibility Requirements.
