

Ontario Highways Program Data Guide

Project information for the Ontario Highways Program is presented in the interactive map and tables. This guide provides explanations for some of the data presented.

Start Year

2021

- Includes all projects that are scheduled to start in 2021 plus all projects that started prior to 2021

2022

- Includes all projects that are scheduled to start in 2022

2023-2024

- Includes all projects that are scheduled to start in 2023 or 2024

Upcoming Expansion

- Includes expansion projects that are scheduled to start in 2025 or later

Target Completion

Projects in Underway status

- Shows the scheduled end year

Projects in Planned status

2021

- Projects that are scheduled to be completed in 2021

2022

- Projects that are scheduled to be completed in 2022

2023-2024

- Projects that are scheduled to be completed in 2023 or 2024

Blank

- Projects that are scheduled to be completed in 2025 or later

Estimated Cost Range

- This displays the estimated cost of the projects within specific dollar ranges
 - i.e. projects in the \$15 - \$50M range will have an estimated cost between \$15,000,000 and \$50,000,000

Delivery Method

- The delivery method is displayed for all projects that are underway
- The planned delivery method is displayed for planned rehabilitation projects that have a scheduled start year of 2021 or 2022
- The delivery method for planned rehabilitation projects that have a scheduled start year of 2023 or 2024 will display as “To be determined”
- Planned expansion projects will include the delivery method where the method has been determined, otherwise it will display as “To be determined”
- Design-Build delivery model:
 - Start Year = Anticipated Year of Award of DB assignment
 - Planned = DB assignment has not yet been awarded
 - Underway = DB assignment awarded and underway

Contract Number

- Where available, planned contract numbers for upcoming project tenders

Planned Early Tender

- This identifies the projects that the Ministry of Transportation Ontario anticipates tendering between Jan 1, 2022 and March 31, 2022
 - Please note that these are subject to change

Engineering Status

- Planning/EA Upcoming
 - Project planning and environmental assessment work has not been initiated
- Planning/EA In Procurement
 - Project planning and environmental assessment work is in the process of being procured and awarded
- Planning/EA Underway
 - Project planning and environmental assessment work is awarded and underway
- Planning/EA Complete
 - Project planning and environmental assessment work has been completed

- Design Upcoming
 - Project design has not been initiated
- Design In Procurement
 - Project design is in process of being procured and awarded
- Design Underway
 - Project design work is awarded and underway
- Design Complete
 - Project design has been completed
